

Gallart.com Live Camera Support

If viewing the camera system for the first time, you may see the following:

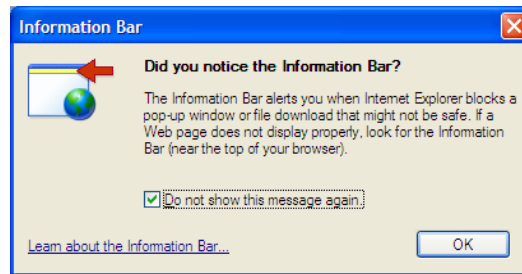

Enter "guest" as the username and select okay

For Internet Explorer problems, see page 2.

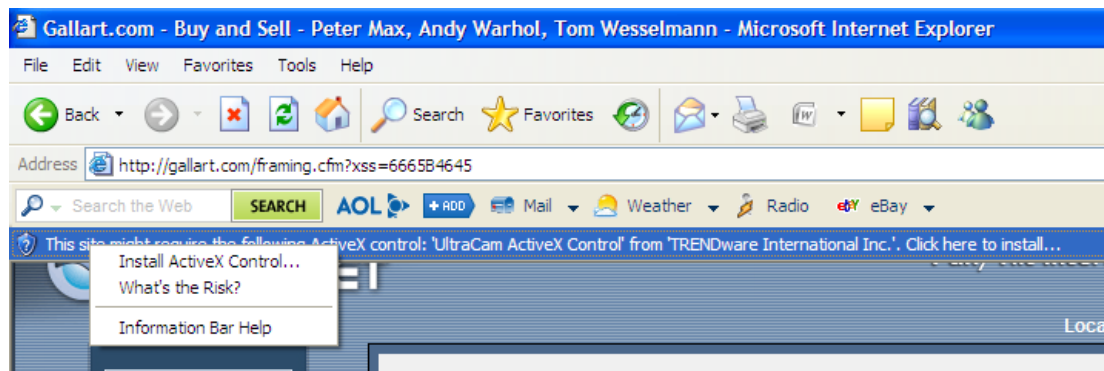

For Mozilla Firefox problems, see page 3.

Internet Explorer:

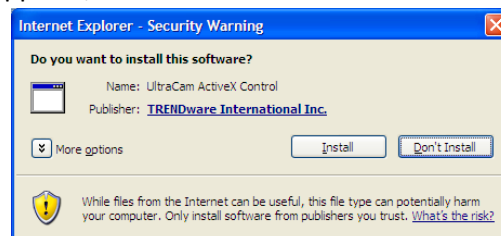

- 1) Select okay – this is just telling you that there is something that needs to be done.

- 2) At the top of the page, click on the yellow information bar that reads “This site might require the following ActiveX control: “UltraCam ActiveX Control” from “TRENDware International Inc.” as seen below

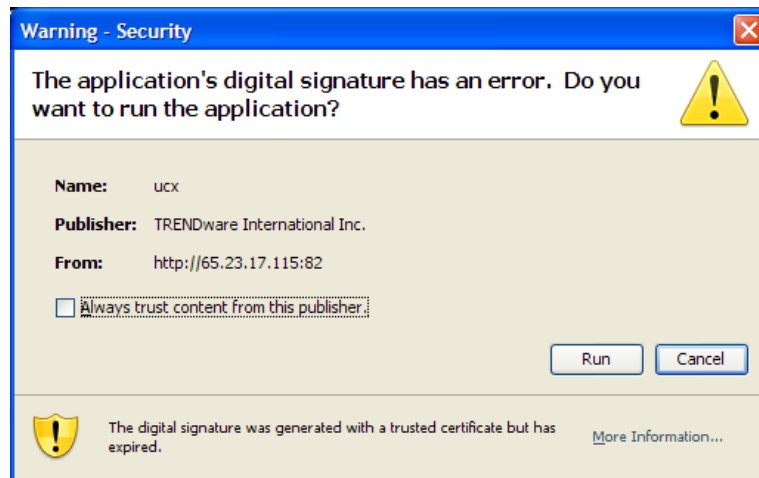

- 3) Click on the yellow bar and select “Install ActiveX Control”
- 4) When the window below appears, select “install”

- 5) You now have access to our camera control system

Mozilla Firefox:

- 1) When the window below appears, select “Run”

- 1) You now have access to our camera control system
